FALL

1925

Do You Have My Nut Catalogue?

If not, drop me a card for a copy of the 1924 edition. I am not getting out a new edition this year as the supply of trees is very limited, and with few exceptions, will probably all be sold this fall.

Fall Planting Season

My hardy Penn'a. grown nut trees can be as safely planted in the fall as any other hardy deciduous trees and I recommend fall planting, and practice it myself. We plant here up to Xmas, usually.

Fall planting has several advantages over spring planting. In the fall one usually has more time to do the work and the ground is usually drier and more easily worked than is the case in the early spring months. Fall planting, too, does not call for such particular work, as the late fall rains and the subsequent freezing and thawing settle the dirt solidly around the roots of the trees, so that by the time spring arrives conditions are favorable for an early start and maximum growth of the trees.

Grafted Nut Trees in Very Short Supply

Owing to the difficulty in getting labor to dig the deep rooted nut trees, my plantings of nut stocks was cut down to the minimum several years ago and as a result, I have a very limited supply of trees to offer this season. Many were disappointed in not being able to get trees last spring and this season's supply is much shorter.

The spring 1926 price list, if one is mailed, will quote only single tree prices. The dozen prices will hold good this fall however on orders for fall shipment, also orders for spring shipment if ordered and paid for in advance this fall.

The Future Supply of Nut Trees

At last I have better news for many who have felt much concern for the future supply of nut trees. I am again increasing my plantings of nut stocks and expect to have my usual supply again in the course of two or three years. It has been practically impossible to get men to dig the deep rooted nut trees and this necessitated reducing planting of stocks greatly. I have been working on special digging machinery to dig the trees by power and my efforts in this direction have been sufficiently successful that I feel safe in again increasing the output. While I am not making any promises as to prices of the trees for the future I feel sure they can be held where they are. It is going to cost more of course to produce trees that can be dug by power, but it will also cost less to dig them, not counting, of course the first cost of the special digging machinery.

Prices of Trees, Fall 1925

PECAN TREES	—2 to 3 feet tall, \$2.00 each; \$20.00 per dozen.
" " "	—3 to 4 feet tall, 2.25 each; 22.50 per dozen.
" " "	—4 to 5 feet tall, 2.50 each; 25.00 per dozen.
" " "	—5 to 7 feet tall, 3.00 each; 30.00 per dozen.

ENGLISH WALNUT TREES	—2 to 3 feet tall, \$2.00 each; \$20.00 per dozen.
" " "	—3 to 4 feet tall, 2.25 each; 22.50 per dozen.
" " "	—4 to 5 feet tall, 2.50 each; 25.00 per dozen.
" " "	—5 to 7 feet tall, 3.00 each; 30.00 per dozen.

BLACK WALNUT TREES	—2 to 3 feet tall, \$2.00 each; \$20.00 per dozen.
" " "	—3 to 4 feet tall, 2.25 each; 22.50 per dozen.
" " "	—4 to 5 feet tall, 2.50 each; 25.00 per dozen.
" " "	—5 to 7 feet tall, 3.00 each; 30.00 per dozen.

SHAGBARK HICKORY TREES	—1½ to 2 feet tall, \$2.00 each; \$20.00 per dozen.
" " "	—2 to 3 feet tall, 2.25 each; 22.50 per dozen.
" " "	—3 to 4 feet tall, 2.50 each; 25.00 per dozen.
" " "	—4 to 6 feet tall, 3.00 each; 30.00 per dozen.

FILBERTS, TRANSPLANTED	—1 to 2 feet tall, \$1.25 each; \$12.50 per dozen.
" " "	—2 to 3 feet tall, 1.75 each; 17.50 per dozen.

CHINESE ALPINE WALNUT	—2 to 3 feet tall, seedlings, \$1.25 each.
" " "	—3 to 4 feet tall, seedlings, 1.50 each.

The above were grown from extra select imported nuts gathered for me in North China and are the hardiest type of all the so-called English or Persian walnuts.

Varieties of Trees For Sale, Fall 1925

PECANS: Busseron, Indiana, Butterick, Niblack, Greenriver and Marquardt.

ENGLISH WALNUTS: Mayette and Franquette only.

BLACK WALNUTS: Thomas, Ohio, Stabler and Ten Eyck.

FILBERTS: Barcelona, English, DuChilly, Italian Red and Aveline.

HEART NUTS: None for sale before fall 1926.

PERSIMMONS: None for sale this season.

SHAGBARKS: Beaver, Laney, Siers and Fairbanks.

Larger Trees for Quicker Results

I have a limited number of select, twice transplanted trees of the Pecan, Black Walnut, etc., for quick results in bearing or immediate ornamental effect. If interested write for special price list of these.
